

PE and Sports Premium Report 2018/19

It is with great pleasure and excitement that we share with parents and governors, Ivy Bank's information regarding our PE and Sport Grant funding. In 2018-2019, we received £19,580 which has enabled us to build on the quality of PE and sports provision throughout the school.

We aimed to promote healthy and active lifestyles and provided sporting opportunities for all our children regardless of their sporting ability, gender, social background and special educational needs, whilst enabling the most able children to participate in high level competitions.

Building on the success of last year's deployment of funding, we are pleased to have offered a variety of sporting experiences to all the children, which has been recognised at Ivy Bank by gaining a GOLD GAMES MARK for the third year running.

How has the funding been spent?

The funding has continued to be used to support our partnership with Macclesfield Schools' Games Partnership (MSSP), giving us access to all competitions and festivals organised by our SGO, alongside participating in Macclesfield Primary School events such as inter school leagues and tournaments. We have had success in a variety of local competitions this year:

Football – reaching the semi- finals in the county finals for Girls and winning the Macclesfield Girls' Reliance 7s competition.

Cricket – winning the MSSP district girls' final to qualify for the county final, qualifying for the MSSP mixed district final.

Athletics – winning the Macclesfield Academy cluster event to reach the MSSP final for indoor athletics, where we finished in 4th place overall. At the outdoor district athletics event, the team finished 3rd overall with the boys in 1st place. All of the children showed a great competitive spirit and outstanding teamwork to reach each of the track finals; many children achieving medals in both track and field events.

Swimming – our 'highest ever' finishing position of second in the Macclesfield Schools' Swimming Gala with representatives in every final and many medalists.

Cross country – the boys year 5/6 age group came 2nd overall in championship, after a successful season in each age group, having many highly placed athletes.

Tri-golf – reaching the MSSP final, by winning the cluster event, where we were narrowly beaten into second place.

An increasing number of children have participated in sports festivals: inclusive tennis, tri-golf, new age kurling, boccia and multi skills competitions to name but a few.

Through these opportunities the children have developed skills of determination, team-work and good sportsmanship. They have become more involved in the planning and delivery of PE - both in the curriculum and at extra-curricular clubs. We attended the School Games Makers conference with four children who now use their skills to engage younger children in a variety of activities at lunch and break times.

In addition to this, we also continued to receive curriculum support from our partnership with The Macclesfield Academy. We have reflected and monitored the Long Term plan for PE using this partnership and ensured progression of skills and a wide range of sporting activities. This has included the introduction of orienteering skills to the older children. Staff have a clear understanding of how to engage the children and develop their skills across the PE curriculum. There continues to be an increase in CPD opportunities and training.

Curriculum and Extra Curricular Activities.

- Extra swimming sessions for year 4, 5 and 6 non-swimmers and training for our competitive gala swimmers for ten weeks to enhance swimming provision.
- Specialist PE teachers from Macclesfield Academy to work alongside class teachers during indoor PE lessons, to improve delivery of the curriculum for gymnastics and dance.

- Jordan Pearson (sports coach) has been employed during the summer term to provide EYFS 1/2 and Resource Base with specialist provision outdoors, providing CPD opportunities for all staff and rewarding activity for the children.
- We continue to invest in 'Maths of the Day' resources, which increases activity across the curriculum.
- 'Skip-Hop' came into school for 2 days in October '18, teaching children (and staff) a variety of skipping techniques that have been continued throughout the year, both in PE lessons and at playtimes.
- Sports Days were a celebration of PE at Ivy Bank for the end of the school year enhanced by the involvement of outside agencies. This year, all the children had the opportunity for greater participation by splitting into Key Stage groups: KS2 had a whole day of activities, with years 3/4 participating in the morning and years 5/6 in the afternoon, supported by Sportshall Athletics for the third year running. All the children were present for the opening and closing ceremonies, with gymnasts performing a routine choreographed by year 6 members of the team.
EYFS 1/2 and KS1 had their own day of activities, with the youngest children taking part in the morning, supported by Jordan Pearson and our year 5/6 PE ambassadors, whilst years 1/2 had the afternoon for their activities lead by Sportshall Athletics for the first time, alongside our own year 5/6 PE ambassadors. Both days were a huge success, with positive comments on the changes to the organisation from children, staff and parents.
- The funding has enabled Ivy Bank to offer a Multi Skills after school club for EYFS2 children and Athletics for KS2. Both these clubs were run by outside agencies and gave the least active children a chance to shine! These clubs, for the least confident members of our school, compliment the clubs organised by school staff and include football, netball, cross country, cricket and rounders which prepare the children for competitions and country dancing and multi-skills for our younger children.

Resources

- Update and expansion of PE resources to enable full participation in all class lessons and enhance after school activities.

Time for:

- Monitoring of PE provision and milestone assessments to ensure coverage of the curriculum.
- Coordinator and TA staff to accompany children at sporting competitions.
- Coordinator to attend Network Meetings with SGO (school games organiser).
- Attended local Macclesfield Sports Association meetings for netball, football, cross country, athletics, rounders and swimming.

Subscriptions

- MSSP membership to enhance competitive sports opportunities and staff development.
- Macclesfield Sports Association subscription – netball, football, cross country, athletics, rounders and swimming.

What impact has the funding had?

The children have continued to benefit from the opportunity to participate in an increased range of sports and gained skills from specialist teachers.

Using outside agencies, we have been able to extend, and fund, further extra- curricular clubs this year in addition to those already run by committed teaching staff. This is fully recognised and appreciated by parents. Pupil voice is still very important to us and we encourage their input and the ideas through the active School Council.

We have already seen evidence in daily lessons, milestones data and feedback reports that the PE and sport premium has raised the achievement of our pupils, as well as increased the engagement of both staff and children. This is particularly evident in swimming, which we consider a skill for life. This is recognised in our fantastic achievement of GOLD SCHOOL GAMES MARK for the third year running.

Swimming 2018-2019

Of 57 children in our mainstream year 6 cohort, 55 were able to swim competently over a distance of 25 metres and were able to use a range of strokes effectively – including breaststroke, front crawl and backstroke. All 55 children completed a water safety element in their swimming lessons, involving self-rescue technics whilst swimming in their clothes.

Sustainability

The improvements to the PE curriculum that are supported by the sports premium funding involve: CPD for all class teachers and teaching assistants – working alongside specialist high school teachers, attending curriculum staff meetings and MSSP courses, a rolling program of replenishing and adding new resources to widen the opportunities available to the children and creating a positive attitude towards sport and sporting competition within Ivy Bank to enhance the importance placed on PE both in curriculum time and during after school activities.

Funding for 2019 – 2020.

This year our funding is £19,610. We will be using this to continue and develop the objectives above, working alongside our partnership with The Macclesfield Academy – focussing on competitive sports for a wider range of KS2 children multi-skills opportunities for KS1. EYFS 1 and The Resource Base will continue to benefit from the experience of a qualified sports coach. Our involvement in MSSP further develops the number of sports the children have the opportunity to experience. We continue to invest in 'Maths of the

Day' resources which increases activity across the curriculum and have planned INSET provision to ensure it is effectively used throughout the school, helping to increase the children's activity during maths lessons.

We are looking forward to another two fun filled days, in the autumn term, developing the children's skills of 'Skip Hop', which will enthuse the children once again and increase their level of activity throughout the coming year. We are benefiting from skills of Macclesfield Town Community Sports Trust to lead an athletics based after school club involving children across KS2 and the Primary Stars programme involving children in years 4, 5 and 6.

As in previous years our funding will also support renewing resources as needed, sports clubs' subscriptions and teacher time for attending competitions, network meetings and curriculum monitoring.
