

Worksheet 19

Finding Number of Days

1 Match.

Solve.

- 2 A bridge was built during the months of October and November.
How many days did it take to build the bridge?

There are 31 days in October.

There are 30 days in November.

$$31 + 30 = 61$$

It took 61 days to build the bridge.

- 3 A boy in my school was born on February 29.
The sum of the digits of the year he was born is 10.
In which year was he born?

The boy was born in 2008.

- 4 Holly's father spent three months working overseas from the first day of January to the last day in March in 2010. How many days was Holly's father away overseas for work?

There are 31 days in January.

There were 28 days in February 2010.

There are 31 days in March.

$$31 + 28 + 31 = 90$$

Holly's father worked overseas for 90 days.

Worksheet 20

Finding Number of Days

Solve.

- 1 A celebration was held from 28th June to 3rd July.
How many days did the celebration last?
